Diamond Care Health Services LLC

offers service to patients that are homebound the opportunity to receive medical attention in the comfort of their home in comparison to the confinement of a hospital. Studies have shown that patients recuperate faster because of being around loved ones. It is also a cost effective alternative to staying in the hospital or living in a nursing home.

Staying at home allows patients to feel better about themselves, a sense of security and well being and the freedom of not being a burden on family and friends. Our Home Health Care physician will come to your home or your personal physician in collaboration with an intake nurse will create a Plan of Care and discuss it with the patient and/or a family member before commencing with service.

ABOUT US

Diamond Care Health Services, LLC is licensed by the Texas Department of Human services and certified by (CMS) center for medicare and medicaid services.

We make it our mission to provide our clients quality care with a cheerful and positive attitude while steering them to the path of better health and lifestyle of independency.

To assure the best of care, DCHS employees are interviewed carefully and only those with the highest qualifications are selected. The nurses are state licensed. Our staffs are highly qualified and experienced home health workers. Every staff's criminal background is checked through the Department of Public Safety (DPS).

To assure continuation of quality care, education and professional updates are provided through in-service education and seminars.

We are in business because of our clients, so our clients are our #1 priority.

OUR SERVICES

Through the coordinated efforts of the patient's physician and DCHS intake nurse, clients will receive an individualized "plan of care". A Plan of Care details the client's health situation, what service and treatment they will require and which equipment and/or supplies they may need also including the doctor's expectations as a result of treatment.

Services that we can offer:

✓ Skilled Nursing

A registered nurse will assess the patient and be responsible for teaching you about medication, treatment, your disease and any modification you may need to make to manage your disease. An LVN may deliver skilled nursing under the supervision of a registered nurse.

- ◆ Catheter Care
- ◆ Ostomy Management
- ◆ Diabetic Management
- ◆ Wound Care
- ◆ Equipment Training
- ◆ Post-stroke Care
- ◆ Disease Process Management
- ◆ Pain Management

✓ Physical Therapy

Our hardworking physical therapists will assist the patients with mobility issues by making use of the following services:

- ◆ Gait Training
- ◆ Setting up a home exercise program
- ◆ Therapeutic Exercises
- ◆ Planning, treating to restore and preserve function

✓ Speech Therapy

We have Speech Therapists on standby to assist patients with language and communication problems. Hardworking and devoted, they are more than ready to assist in recovering skills such as:

- ◆ Swallowing
- ◆ Speaking
- ◆ Listening
- ◆ Reading
- ◆ Writing
